Commercial Access Control
System Specialists

We Are Security Lock Service

Welcome to Security Lock Service

We are not your typical locksmith. We are commercial Access Control, CCTV, and Security Specialists. Our customers are retail stores, schools, offices, factories and government

Access Controlled Door

buildings that are looking to improve their security using both mechanical and electronic security devices.

In the past 16 years we've installed over 2000 electric strikes and 1000 mag locks. Our commercial service team has rekeyed and master keyed thousands of locks. Over the past three years we've installed almost 2000 cameras, including one location with over 350 cameras and 42 miles of CCTV wire.

Hundreds of Cameras Linked Together

We have 4 fully equipped locksmith vans with generators, key machines, security

devices, camera equipment and lock hardware. Our technicians have a combined 65 years of commercial locksmith and security experience.

Security Lock Service began serving Richmond and Central Va. In 1994. Since then we've covered most of the state of Virginia. Our technicians have installed security hardware from Florida to Western Pennsylvania.

Give us a chance to secure your facility. We offer free estimates. If you have a tough security problem or think that it can't be done, we may have a solution.

Intercom Panel

After 16 years in the commercial, retail, industrial and government sectors, our company has installed almost every type of security device available.
